Professional Summary

Senior BI Developer with 6+ years of experience building dashboards, semantic models, and reporting solutions across HR, finance, and leadership teams. Skilled in Power BI Desktop & Service, DAX & Power Query (M), SQL Server (T-SQL), Azure Data Services, requirement analysis, and stakeholder communication.

Core Technical Skills

Power BI Desktop & Service	DAX & Power Query (M)	SQL Server (T-SQL)
Azure Data Services	Row-Level Security (RLS)	Paginated Reports
Power BI Gateway	ETL Pipeline Design	KPI Design & Monitoring

Professional Experience

BI Consultant | BluePeak Technologies

Full-time | Business Analytics COE Nov 2025 - Present

- Delivered UAT support, reconciled dashboard totals with source systems, and managed production report releases.
- Created Power Query transformations and SQL views that reduced manual data preparation effort for 150+ users.
- Designed tabular data models and reusable DAX measures for Customer Success KPIs, improving consistency across business reports.
- Built 12+ Power BI dashboards using data from Azure SQL, improving recurring reporting turnaround by 30%.

BI Developer | QuantEdge Analytics

Full-time | Enterprise Reporting Oct 2024 - Dec 2024

- Developed T-SQL stored procedures, CTEs, and reporting datasets for faster Power BI and SSRS consumption.
- Redesigned ETL workflows and validation checks, reducing data refresh failures and cutting processing time by 25%.
- Partnered with HR stakeholders to gather requirements, validate calculations, and deliver actionable KPI scorecards.
- Prepared report documentation, metric definitions, and user guides to improve adoption across HR teams.

Key Projects

Retail Revenue Analytics Suite

| Power BI | Azure SQL | DAX

Built sales, inventory, and margin dashboards for retail leadership with drill-through pages by region, store, category, and sales channel.

Manufacturing Quality Analytics

| Power BI | SQL Server | Power Query

Delivered quality, rejection, downtime, and production dashboards with plant-level filters and root-cause views for process owners.

Customer Churn Insights Model

| Power BI | Python | SQL Server

Prepared customer datasets and designed executive dashboards showing churn indicators, revenue leakage, and segment-level retention actions.

Education

Bachelor of Science - Computer Science 2018 - 2022

University of Mumbai

Certifications

- Microsoft Certified: Azure Database Administrator Associate (DP-300)
- Advanced DAX for Power BI
- Microsoft Certified: Azure Data Fundamentals (DP-900)

Additional Skills & Tools

Productivity: Advanced Excel, Power Pivot, SharePoint, Teams, Jira

Quality: Report validation, reconciliation, UAT support, stakeholder sign-off

Data Integration: Flat files, REST APIs, Oracle, SQL Server, cloud data sources

Governance: Workspace management, data refresh monitoring, access control, deployment pipelines

Documentation: Data dictionaries, report catalogs, user guides, release notes
