Professional Summary

Analytics-focused Power BI Developer with 2+ years of experience delivering Power BI reports, DAX measures, SQL datasets, and KPI scorecards. Known for improving reporting accuracy, refresh reliability, and executive visibility.

Core Technical Skills

Power BI Desktop & Service	DAX & Power Query (M)	SQL Server (T-SQL)
Advanced Excel & VBA	SSIS / SSAS / SSRS	Paginated Reports
ETL Pipeline Design	Azure Data Services	Power BI Gateway

Professional Experience

Power BI Developer | NextWave Digital

Full-time | Data Platform Team Sep 2024 - Present

- Partnered with Finance stakeholders to gather requirements, validate calculations, and deliver actionable KPI scorecards.
- Built 15+ Power BI dashboards using data from Excel files, improving recurring reporting turnaround by 45%.
- Optimized report queries, relationships, and measures, improving dashboard load performance by 45%.
- Configured Power BI Service refresh schedules, workspace access, and row-level security for business teams.

SQL Reporting Analyst | Infovision Analytics

Full-time | Data Platform Team Jan 2023 - Dec 2023

- Optimized report queries, relationships, and measures, improving dashboard load performance by 45%.
- Redesigned ETL workflows and validation checks, reducing data refresh failures and cutting processing time by 20%.
- Prepared report documentation, metric definitions, and user guides to improve adoption across Supply Chain teams.
- Developed T-SQL stored procedures, CTEs, and reporting datasets for faster Power BI and SSRS consumption.

Key Projects

Executive KPI Scorecard

| Power BI | SSAS | DAX

Designed a leadership scorecard with KPI thresholds, trend indicators, and automated refreshes for monthly business review meetings.

Operations KPI Command Center

| Power BI | Power Query | SQL Server

Created operational dashboards for SLA, volume, backlog, and productivity metrics with automated refreshes and executive-level bookmarks.

Supply Chain Visibility Dashboard

| Power BI | SQL Server | Power Query

Created supplier, logistics, and delivery performance reports that helped operations teams track delays, fill rates, and inventory risk.

Education

Master of Computer Applications 2016 - 2020

Pune University

Certifications

- Excel Power Pivot and Power Query Certification
- SQL Server Reporting Services Certification
- Microsoft Certified: Azure Database Administrator Associate (DP-300)

Additional Skills & Tools

Data Warehousing: Kimball methodology, Star & Snowflake schema, SCD Types 1 & 2

Reporting & Visualisation: Power BI Desktop, Power BI Service, SSRS, Paginated Reports, Custom Visuals

Quality: Report validation, reconciliation, UAT support, stakeholder sign-off

Productivity: Advanced Excel, Power Pivot, SharePoint, Teams, Jira

Data Platforms: SQL Server 2016/2019, Azure Synapse Analytics, Azure SQL Database, Azure Data Factory
