Professional Summary

Detail-oriented Power BI Developer with 2+ years of hands-on experience in Power BI Desktop & Service, DAX & Power Query (M), SQL Server (T-SQL), Azure Data Services. Strong background in transforming raw operational data into governed dashboards and decision-ready insights for enterprise reporting and KPI governance.

Core Technical Skills

Power BI Desktop & Service	DAX & Power Query (M)	SQL Server (T-SQL)
Azure Data Services	Data Modelling (Star Schema)	ETL Pipeline Design
SSIS / SSAS / SSRS	KPI Design & Monitoring	Advanced Excel & VBA

Professional Experience

Power BI Developer | Apex BI Services

Contract | BI Modernization Program Sep 2025 - Present

- Optimized report queries, relationships, and measures, improving dashboard load performance by 55%.
- Delivered UAT support, reconciled dashboard totals with source systems, and managed production report releases.
- Designed tabular data models and reusable DAX measures for HR KPIs, improving consistency across business reports.
- Partnered with HR stakeholders to gather requirements, validate calculations, and deliver actionable KPI scorecards.

MIS Analyst | CloudMetric Solutions

Contract | BI Modernization Program Feb 2024 - Jun 2024

- Developed T-SQL stored procedures, CTEs, and reporting datasets for faster Power BI and SSRS consumption.
- Created Power Query transformations and SQL views that reduced manual data preparation effort for 80+ users.
- Prepared report documentation, metric definitions, and user guides to improve adoption across HR teams.
- Optimized report queries, relationships, and measures, improving dashboard load performance by 50%.

Key Projects

Executive KPI Scorecard

| Power BI | SSAS | DAX

Designed a leadership scorecard with KPI thresholds, trend indicators, and automated refreshes for monthly business review meetings.

Enterprise Sales Performance Hub

| Power BI | SQL Server | SSIS | DAX

Consolidated CRM, ERP, and flat-file data into a unified SQL Server warehouse and built an 8-page Power BI suite covering pipeline, revenue, and rep performance. Reduced monthly close reporting from 3 days to 3 hours.

Supply Chain Visibility Dashboard

| Power BI | SQL Server | Power Query

Created supplier, logistics, and delivery performance reports that helped operations teams track delays, fill rates, and inventory risk.

Education

Master of Computer Applications 2016 - 2020

Pune University

Certifications

- Power BI Service Administration
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Advanced DAX for Power BI

Additional Skills & Tools

Data Platforms: SQL Server 2016/2019, Azure Synapse Analytics, Azure SQL Database, Azure Data Factory

Quality: Report validation, reconciliation, UAT support, stakeholder sign-off

Governance: Workspace management, data refresh monitoring, access control, deployment pipelines

Data Warehousing: Kimball methodology, Star & Snowflake schema, SCD Types 1 & 2

Analytics: KPI design, variance analysis, forecasting support, executive scorecards
